Dear Ms. Allen,

We have completed the review process for the Superior Court Clerk child support IV-D budgets for 2023. This process includes a review of estimated expenses and current year spending, along with a review for mathematical accuracy and verification of rates.

Your IV-D Child Support program budget for calendar year 2023 is approved at: **\$108,400**. Federal funds approximate obligation is \$91,056.

The above amount includes both direct and indirect costs. Please be aware that, unless you have adopted the 10% de minimis MTDC indirect cost rate, federal audit standards require a current certified county cost allocation plan in order for DCS to reimburse indirect costs. Your county cost allocation plan must be updated annually by your county finance office.
